

Evonik Names Modern Plastics As The Key Distributor Of VESTAKEEP® Medical PEEK In North America

Customers To Benefit From Easier Access, Larger Inventory, Faster Delivery

PARSIPPANY, N.J., July 29, 2011 – Evonik Degussa Corporation has named Modern Plastics as their distributor of its VESTAKEEP® Medical PEEK (polyetheretherketone). Under the agreement, Modern Plastics will market, sell and distribute the full line of VESTAKEEP® Medical products designed for short-term contact and permanent implant medical devices and applications throughout the United States and Canada.

“We value our relationship with Modern Plastics, the premier distributor of medical-grade plastics, and are excited about utilizing their experience and expertise” said Kenneth Ross, Evonik Business Development Manager, VESTAKEEP® Medical, High Performance Polymers, North America.

Key benefits of this agreement to the customer include access to a large inventory of VESTAKEEP® medical products through Modern Plastics and reliance on fast delivery, complete with ISO certified processes. “The value proposition we now offer is truly exciting and our medical OEM customers’ have easier access to VESTAKEEP® PEEK” said Bing J. Carbone, President of Modern Plastics. “Modern Plastics distributes cutting edge medical plastics, which makes implant grade VESTAKEEP® a perfect fit into our wider range of high-quality materials.”

Modern Plastics experience in the handling and distribution of medical grade plastics is conducted to extraordinary levels beginning with strict ISO policies and procedures with regard to product lot and batch control, individual plastic material barcoding and detailed material certifications per ISO standards. “Our medical grade plastics utilize clean-process material handling techniques in an environmentally controlled storage facility, where proper temperature and humidity is rigidly maintained and tracked with positive air-flow conditions in a completely sealed environment” said Carbone.

The agreement covers VESTAKEEP® medical products including implant grade powder, implant grade resin, multiple diameter stock shapes in one and three meter lengths and other stock shapes for consideration. Resin lines are available in 5kg and 10kg containers with larger amounts available upon request. All VESTAKEEP® M-Grade and I-Grade PEEK polymers are manufactured to meet ASTM F2026 specification and are produced and extensively tested to meet ISO-10993 requirements.
